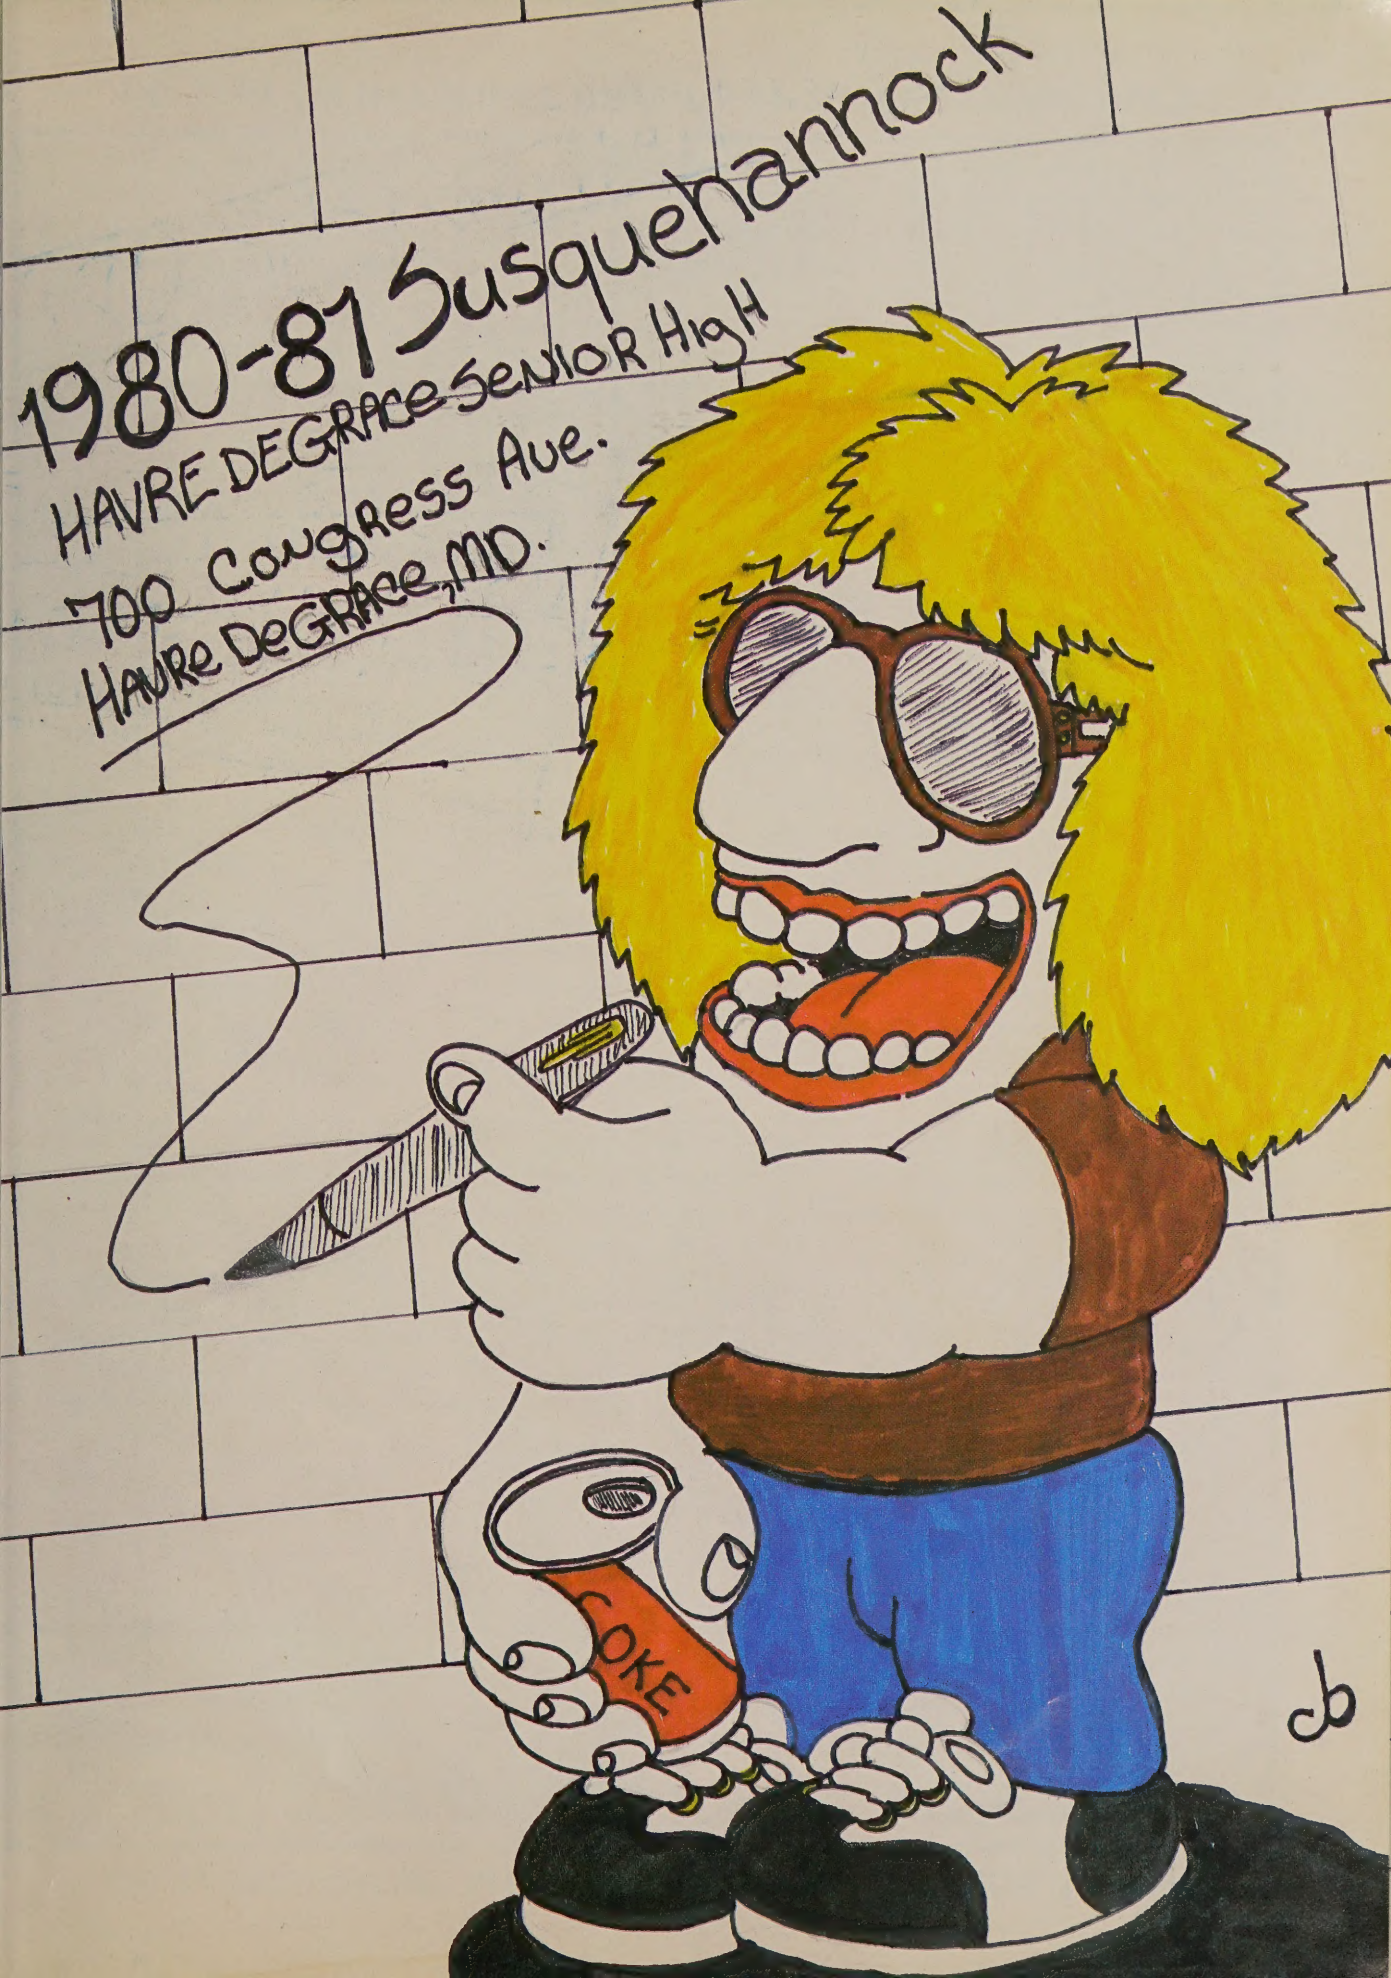
HAVRE DE GRACE SENIOR HIGH
700 CONGRESS AVE.
HAVRE DE GRACE, MD.



The dictionary defines graffiti as an inscription, slogan, or drawing crudely scratched or scribbled on a wall or other public surface. Everyday we see graffiti on walls, desk tops, bookcovers, rocks, bumper stickers, t-shirts, and even human flesh in the form of a tattoo. Regardless of the surface on which graffiti appears, it always makes a strong visual impact on the viewer.

Teenagers, such as those at Havre de Grace Senior High School, have their own personal way of expressing themselves. This is evident in everything they do from the clothes they wear to the music they listen to. The class of 1981 leaves behind their personal expressions in the form of **PHYSICAL GRAFFITI,** the 1980-81 **Susquehannock.** By utilizing pictures and graffiti we have recorded a scrapbook of ideas, feelings and memories for posterity.

Half-opened eyes-new cloths-friends reuniting. It's 7:30 in the morning and the school area is already filled with both new and returning students. Freshman are walking in the hallways with looks of confusion and awe. Soon, too soon, the "five- minute" bell rings and everyone runs for their first period class. We're not even in class ten minutes when Dr. Dubel's familiar (at least to some of us) voice comes booming over the loud speaker. He begins to remind us of the already- well-known rules that we hear each year. He warns us to have "no blank expressions" and once again reminds us of the consequences. Rules, rules, rules. Old rules, new rules (assigned seats on buses), and old rules again (some say even the class of '81 rules). In every class we're given those familiar index cards. Over and over again we give the teachers the same information they've had for years. We still have the same name, we still live at the same place, and who cares what we like to do after school hours!

We're let out of first period at 9:20, and move on to our second class. The day goes on. Lunch. We still have three crowded lunch periods, the same old food, and the confusion of finding a seat. Lunch is over and we return to our classes. Funny-our first day back and we still can't wait until 2:30! Afternoon announcements come on and we know we're nearing the end. 2:25! It's all over. Our journey of a thousand hours has begun!

Maroon and White, our colors that fly,
They represent us here at Havre de Grace
High.
The maroon is our blood that keeps us tight,
Our free spirit is shown by the color of
white.
We use their names in all of our cheers,
The confidence they create chases away all
our fears.
These colors stand for every student in our
school,
The maroon stands for vunerable and the
white's bright and cool.
Maroon and white, our colors so true,
They mean so much though their number is
few.
Our bit of the spectrum shows our spirit so
clear,
And they're not just for one, but for all of us
here.

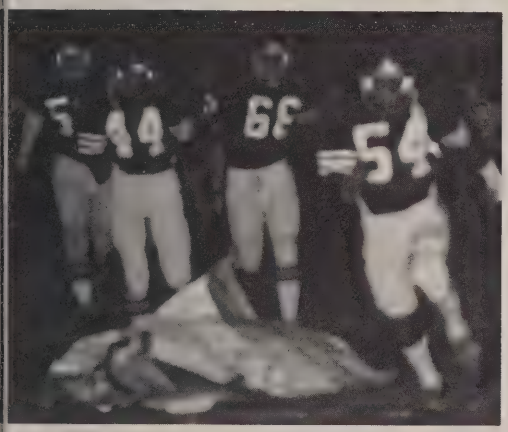
ANOTHER ONE BITES

The junior class girls "bit the dust" in the annual powder puff game. The only bright spot in the game was the junior cheerleaders who tried to inspire their players while dodging eggs or apples thrown by the senior cheerleaders. The seniors were winning 12-0 in the last quarter when the game became too **egg**-citing. Mr. Baker was hit with an egg.

THE DUST

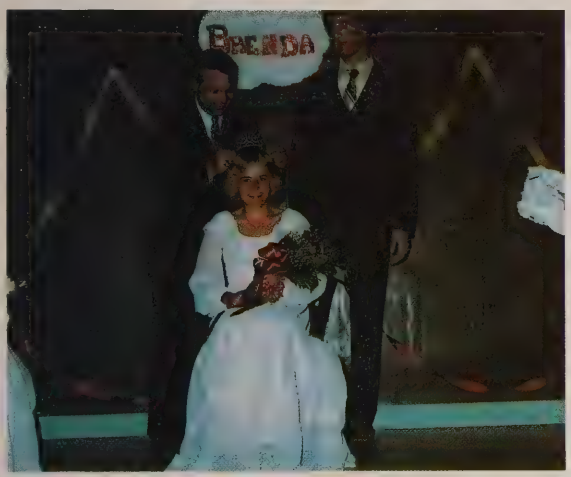


This year's annual Homecoming Game was played on the 24th of October against the Perryville Panthers. At halftime the Homecoming Court was announced, and Brenda Culley, as queen, wore the warrior headdress. The warriors won 7-6.

HOME

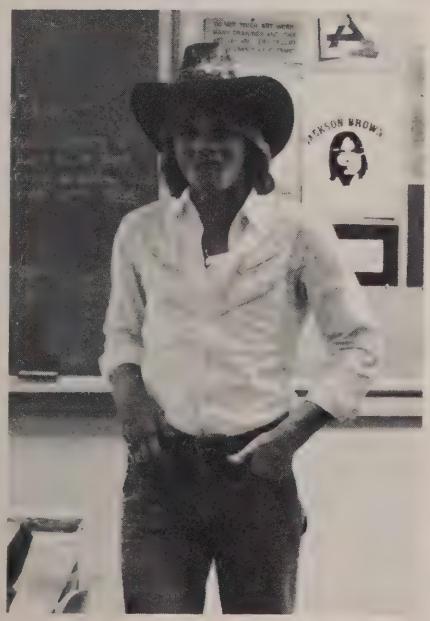
STONED OAK! What is stoned oak? It was the band playing at the 1980-81 Homecoming Dance. After the procession, Donny Graybeal was awarded MVP. Although the plans for the dance began two months ago, students most enjoyed missing class to decorate. "All the hard work paid off when we saw students having such a good time," commented Ruth Hoch, president of the Spirit Club.

COMING DANCE



The 1980-81 Homecoming Court included Rayma Coakley, Pam Fisher, Brenda Culley, Tammy Midkiff, and Eva Taylor. Walking under the archway, Rayma Coakley (top left) was escorted by companion Rob Hodges. Being accompanied by Tim Chase was Pam Fisher (top right). Next in line of the procession was the Homecoming Queen, Brenda Culley, (center) who was attended by one of the football captains, Scott Harris. Following the queen was Tammy Midkiff escorted by Donny Smith and last but not least was Eva Taylor accompanied by Novelle Jackson.

ALL



On Wednesday, October 22, students at Havre de Grace High could have been trying out for "Urban Cowboy" as Western Day had arrived. Although the western look could be as simple as jeans and a button-down-the-front plaid shirt, many students were all duded-up in cowboy hats of every sort, vests, boots, jeans, and scarves. Kids of all ages enjoy wearing western clothes because they are comfortable as well as practical.

T SHIRT FEVER HITS H. deG HIGH. What do Mickey Mouse and the Rolling Stones have in common? An unlikely comparison, but amazingly enough they do have something in common. They both have appeared on T-Shirts. Along with these two popular shirts there are millions and millions of others. T-Shirts are today's most popular media for expressing thoughts and feelings. Everyone from one to one hundred wear them and each one is printed with their own personal message to the world. T-Shirts have been around as long as anyone can remember, but only recently have they been used to "talk". This has become the newest media for graffiti, and, as always, will remain popular for years to come.

ROOM

1 Sub-zero temperatures in Mr. Rupprecht's Room.

2 Mr. Rupprecht tries to revive student suffering from the heat.

3 Ricky Glover directs traffic.

4 Mr. Rudolph came prepared for "Lake Rudolph" but Kerry McIntyre didn't.

5 Tony Bishop, Al Casey and Tanya Hathaway enjoying lunch in everyone's favorite room.

6 Watch out for IFO's, commonly called ceiling tiles—they're hazardous to the health.

REMINISCING

Schoolroom reaches 52 degrees Fahrenheit! A student suffers a mild concussion after being wounded while going to his next class. These things happen when a building starts to decay.

Since parts of the Havre de Grace school building will be demolished this summer, the yearbook staff has identified some quirks to remember about this old building. For instance, many cracks stencil the walls adding variety to the drab green color. If someone walked into a room and looked at the ceiling they would notice a brown tint where some of the tiles used to be; while some floors, especially in Mr. Rudolph's room, are also missing tiles.

When it rains students carry their umbrellas to Mr. Rudolph's class as protection against "cloudbursts" which drench at unlikely moments because the roof doesn't stop the water—it just permeates through.

The loud speakers are another matter. The speaker in room 215 rocks students from 7:30 to 8:00 with music from WHHS, while students in room 205 strain to hear the 9:00 announcements.

In the wintertime a student never knows how to dress for school. He needs a parka for Ms. Turowski's room and a bathing suit for Ms. Tripplet's room. In Ms. Tripplet's room it gets so hot that you could fry an egg on the radiator.

People say there are no UFO's and they might be right, but there are IFO's (Identified Flying Objects) which commonly appear in rooms from September through October and from May to June when students spend part of their lunch period outside. The IFO's range from wayward frisbees and pennies to the birds and the bees. Although life could have been more comfortable at HHS, our days there will be fondly remembered.

JUNGLE

Sometimes life at HHS is a jungle. Careful use of your eyes and ears will prove this as your safari from one room to the next. The sights of HHS range from the wild plumage of the rock groupies to the tiger catching his cat-nap to the ever present love-birds. The sounds of HHS range from hyenas cackling over the girls to packs of wild dogs barking and howling their way across Congress Avenue. Now a fast dash to the cafeteria to observe the lunch-time rush: a mass stampede led by cheetahs and followed by herds of buffalo. The scene inside the cafeteria is familiar to any high school student: birds of a feather flocking together. In one group wolves fight with their food; in another chimps chatter wildly. Elsewhere you might catch a glimpse of an Urbanus Cowboyous or a Fashionous Preppieous. Life at HHS is like a tropical disease,-once it gets in your blood, it's there to stay.

Here it is June 4, 1981, my 10 year reunion. Here I sit on death row in my cell, with only the scurrying rats for company. I already asked the warden if I could go to **McCullough** Manor for the reunion but of course he said "No, absolutely not!" A murderer like myself, **Sherry Hardin,** doesn't often get out. I can't help it that my husband kept going to fires without any clothes on under his fire gear, I couldn't stand it any longer, so I killed him. As I lose consciousness, I think back to the days when I was a senior. I can't help but wonder what changes have come over my old friends, if any, I wonder what they're doing now . . . e

"Well, it's almost time for my guests to start arriving," **Gardner McCullough** thought to himself. "Imagine not seeing them for 10 years, and then all of us meeting here at my house." He looks around at the familiar surroundings of his home by the ocean, and smiles in self-satisfaction. "Things have really changed for me" he thought, "I have millions of dollars, this beautiful mansion in California, and I don't ever have to work again if I don't want to." Looking at his diamond and gold watch, he notices that it is nearly 8:00-the scheduled time for the reunion to begin. He then walks over to the bar and refreshes his martini. "I wonder who will be the first to arrive?"

He didn't have long to wait, for almost as soon as he finished his drink and straightned his ascot, there was the sound of the doorbell. One of his many servants walked into the ballroom and announced the first guests. **"Ms. Sheryl Brown** and **Ms. Tammy Midkiff."**

"How amusing," he thought, "just like Certified Public Accountants to arrive on time." Not long after they had said hello to one another, **Robert Riley, Lori Delp, Rayma Coakley-Hodges,** and **Rob Hodges** show up. Robert, Lori, and Rayma are established accountants, too, while Rob enjoys his well-paying job of computer repairing. The next guests to arrive were old friends, **Judi Jackson, Paula Harvey, Cindy Walker, Robin Gepp,** and **Mary Bowman.** Each in her own way became very successful; Judi and Cindy both have excelled in the art field; Robin is an environmental biolgist, currently organizing a benefit rock concert to save wild animals from extinction; Mary is an established beautician; Paula is still undecided, but very happy about her decision. There is a steady flow of people coming in now. **Sandra Ward** and **Donny Graybeal** stroll in, arm in arm, accompanied by **Kevin Hendricks,** who is still looking for a wife, and having a good time doing it. Standing in a corner near the bar are **Sandy Blake** and **Terri Scarborough** trying to teach **Lisa Armstrong** and **Tammy Watson** sign language. Lisa, who is a psychiatrist, thinks this may be helpful in her career, Tammy saunters over to **Michele Wolbert** and**Theresa Riston** to tell them about her exciting life as a fashion advertiser. Michele is in the process of showing Theresa pictures of her children and of her home in Cincinnati. Meanwhile, a crowd has gathered around **Rhonda Brown,** a big time Disc Jockey, as she introduces **Bobby Lee,** a world renowned vocalist. **Debbie Ellis, Mamie Privett** and **Sharon Cochran** recall the many mishaps of their days of high school and try to out do each other's "cute kids" stories. There is a small argument at the door between one of the servants and a man in a red-checked field jacket, carrying a rifle. "That's just **Mark Gorham,"** Gardner explains to the astonished woman, "He obviously thinks it's goose season again." She shakes her head and wanders away. This had been her second mistake of the evening. She had thought the man in the Army uniform shouting "Where are you, you commie?" was an escaped lunatic, but she later learned that it was **Bill Sarver,** a member of the class of 1981. It took **Tara Sheppard,** a member of the Air Force, **Scott Harris,** head of a research team to prevent athletic injuries, **Jodie Roach,** a contender in the Mr. Olympia contest, **Johnny Wagoner,** a pro-football player, and **Sonya Carr,** R.N. to calm him down. It then took another 20 minutes for **Betty Powell,** R.N. and **Peggy Cillo,** another plus in the health field, to convince him that there were no commies in the room. As this commotion gets cleared up, another group of alumni walk in. Along with **Brenda Culley** and **Michell Lay** are two of the class officers, **Pam Fisher** and **Tricia Tenly.** Brenda has reached her goal as a cosmetolgist-which explains her hair that changes color with the beat of the music. Michell and Tricia are dental-hygenists, which is rather handy, since Tricia is married to a dentist. Meanwhile, Pam is off running to tell old friends that she has majored in business administration at Towson State University.

"The food for all these people must have cost a fortune," states **Brian Byers,** a business executive, to **Tom Childers,** an engineer.

"I understand that **James Taylor** provided it all from his restaurant," Tom replies.

"That's right," replies **Duane Christy,** who is always scooping up on news.

"I understand that **David Derickson** designed this building," was a remark made by **David Dinsmore.**

"Of course not," replies **Rochelle Perry,** matter of factly, "this mansion is at least 50 years old. If you weren't so into keeping up with the preppie scene, you might know about more things than pleated pants and skinny ties." Rochelle, a lawyer and an upcoming candidate for Presidency, could not stand dumb or monotonous remarks.

Out on the patio, **Barb Usher** is looking through a telescope, searching for the secrets of the universe while simultaneously singing "Same Old Song and Dance"—an old Aerosmith tune. So far, the only things that she has discovered is that **Eva Taylor,** a teacher in Texas, **Jimmy Sirkis,** a computer programmer, **Sheila Keyes,** a cosmetologist, and **Tammy Ahrens** are stuck in the mud, so she promptly sends **Matt Stewart** to the rescue. Barb then goes back to her post and much to her surprise finds a creature with brown curly hair, dressed in silver, standing where her telescope had been. Could the liquor, furnished by **Bonnie White,** a famous partyer, be getting to her? No, it was only **Debbie Burcham,** the originator of the term "Space Cadet."

"Where is Joan?" Debbie asked in a one tone, emotionless voice.

"Inside, trying to persuade the guys to pose for her magazine," was Barb's reply.

Debbie had a bit of trouble getting to **Joan Bradley** though because she was surrounded by: **Patty Bently, Brenda Catron, Lori Ellenberger, Cindy Glover, Melanie Hagan, Paula Poole, Denise Smith,** and **Teresa Haynie,** who were all married, but wanted to hear Joan's stories of centerfold photography sessions with Rock stars. They were all faithful readers of her magazine **What's Up In Rock & Roll.** Meanwhile, there was crowd consisting of **Ron Barr,** a steward, **Gilbert Bond,** an interpreter from the UN, **Harry Dyson,** a computer processor, and **Skip Unger,** a lawyer, swapping stories with **Gary Johnson** a cartoonist for **Playboy.** Rhonda is now introducing the second set of entertainment. "Right out of New York City, from the infamous T.V. show, **Saturday Night Live**—it's **Joseph Wyatt!" Dianne Lacey** and **Vernell Carter,** established secretaries, are two of the guests who are familiar with Joe's zany acts from one of their favorite shows. **Mark Jackson, Tina McKnight, Debbie Ramey,** and **Cindy Lilly** also show their enjoyment by engaging in bellows of laughter. **Ruth Hoch,** a physical therapist and **Leslie Morris,** who has devoted her time to making her daughter happy, arrive in time to see a fight between **Rae Massey** and **Tammy Watson** who were making their predictions for the fashion designs of next year.

Dannette Robertson was listening to **Cheryl Bond** tell her about her sick, old, wealthy husband. She was horrified to find out that Cheryl was waiting for him to die, so she could inherit his millions. **Sharon Coleman** and **Linda Spencer** were seen for only five minutes, and then disappeared. Since they were both international playgirls, it was not something that was unexpected. **Karen Holloway** explained to a crowd of people that **Dana Robinson** could not attend this party because she was off in Florida, searching for "The Fountain of Youth." **Jann Blevins** and **David Angelini** were seen wandering around singing **Reggae** tunes.

"At last the big moment has arrived," yelled Gardner at the top of his lungs, "everyone outside." As the crowd pushed and shoved their way out, a beautiful 1964 cream-colored Bentley pulled up to the front door. The chauffer, **Gary Summers,** who finally graduated this year, promptly got out and opened the door, to reveal tan leather interior. The first to step out of the car was **Ellen Strong,** the manager of world renowned harmnica player, **Janie Wyatt.** Janie's picture had been on the cover of **Rolling Stone** magazine because her band had finally surpassed the infamy of the Beatles and the Rolling Stones. Janie followed Ellen's departure, and immediately after her came **Michele Wagner-Woods,** piano player in Janie's band. Following her descent came **Scott Walker.** Scott took time off from a recording session to make a guest appearance with the band. The last person out of the car was our own wildman, **Fernando Parker.** He also took time out of his busy schedule to perform. It was the first time that they had ever appeared together on one stage, and did they ROCK!!!! It was definitely the rock event of the decade! A reporter was trying to get an interview, but when the time came, Scott and Fernando were nowhere to be seen.

"Aha!" Ellen said, "Joan is working on next month's issue."

DARLING ANGELS?

As the seniors look back on their last year of high school, they also look back to their childhood. Pictures from the past bring old memories, and show us how we have changed. These snapshots of our senior class as babies give us a look at them when they were just beginning life. These "darling angels" have become the Senior Class of 1981.

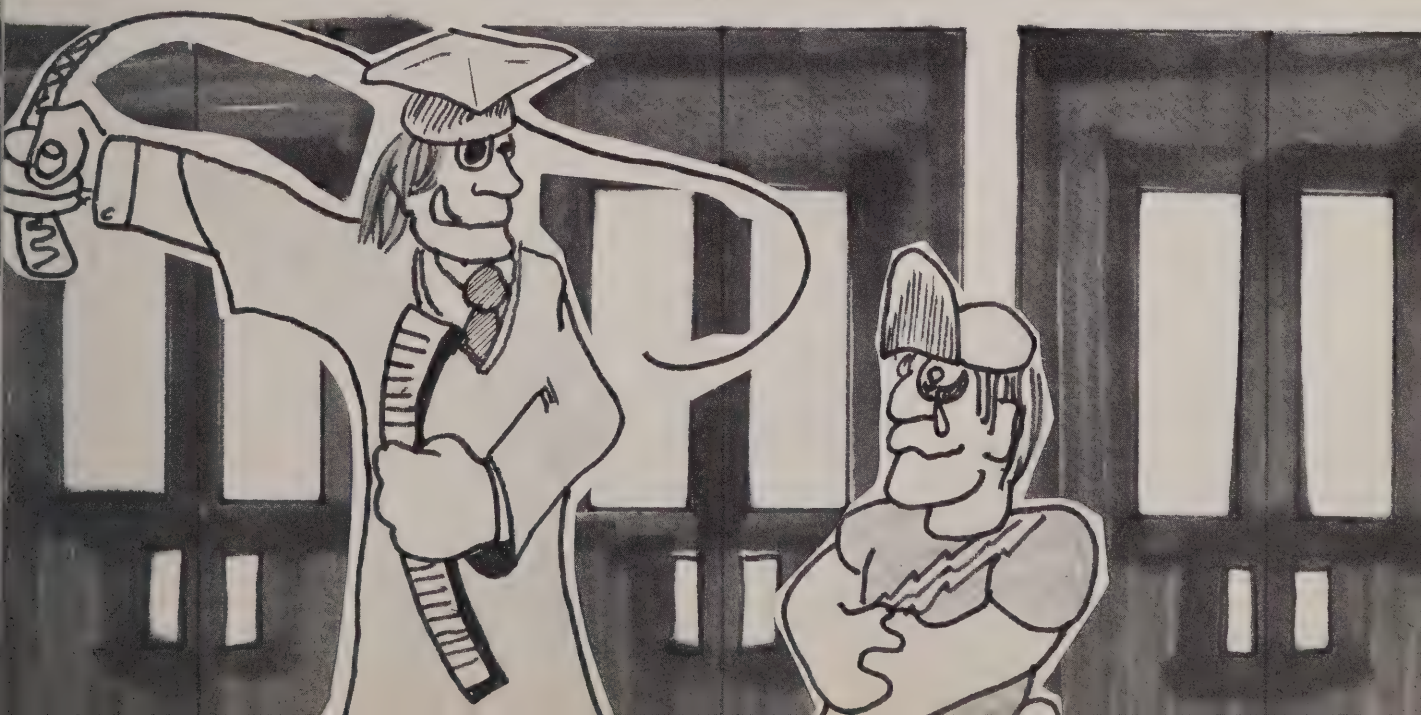
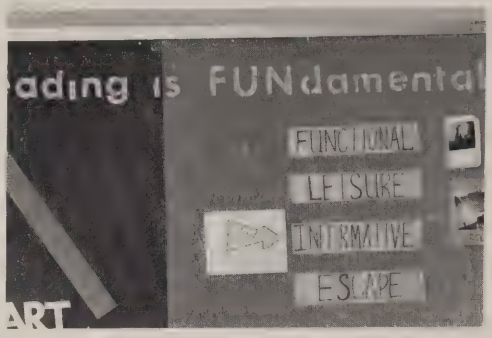
EMERGENCY DOOR

ACADEMICS

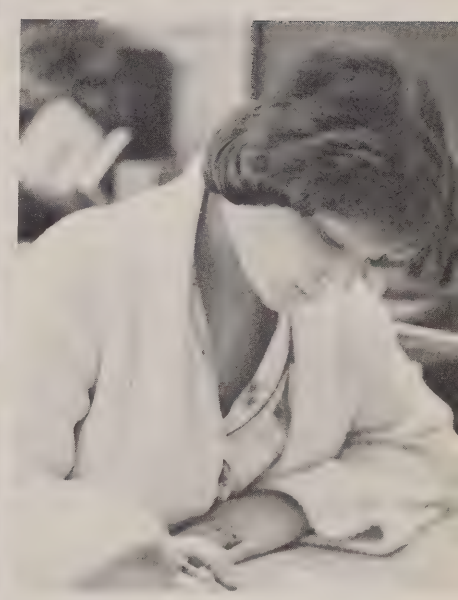


THE ABC'S OF LIFE

Mrs. Allison has long been a favorite English teacher at HHS. She took her Shakespeare class to see **Measure for Measure** in Washington, DC. Two years ago Mrs. Allison was voted "The Outstanding Teacher of Harford County. Top left: One of Ms. Rosenberg's creative bulletin boards. Top right: Mrs. Allison's Shakespeare class reads a play. Middle left: Mrs. Jensen helps Debbie Walters with an assignment. Middle center: Ms. Rosenberg listens to a student's answer. Middle right: Mrs. Allison explains a metaphor to Mary Meyers. Bottom left: Mr. Osman jokes with his students. Bottom right: Ms. Hess dictates spelling words to her class.



THE BUSINESS WORLD



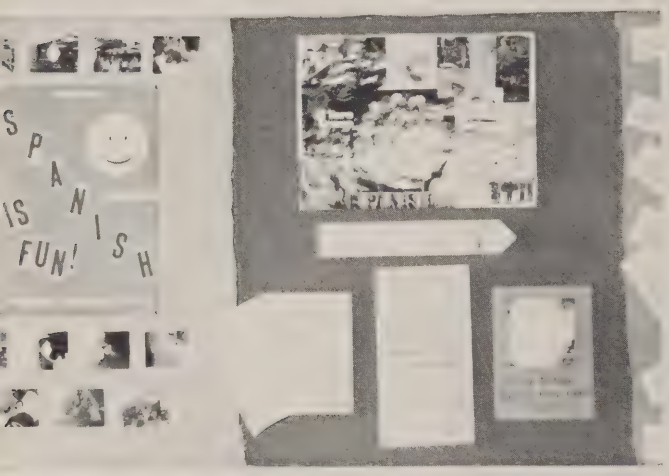
The business classes of HdG are designed to prepare students for the business world. These classes teach students to balance a check book and guide them in choosing a career. Top left: Mr. Holly watches a student complete a speed drill. Middle center: A business machines student completes an assignment. Middle right: Beth Kempsell practices her shorthand. Bottom left: Patty Gorham practices not looking at the typewriter. Bottom right: A student calculates the day's problems.

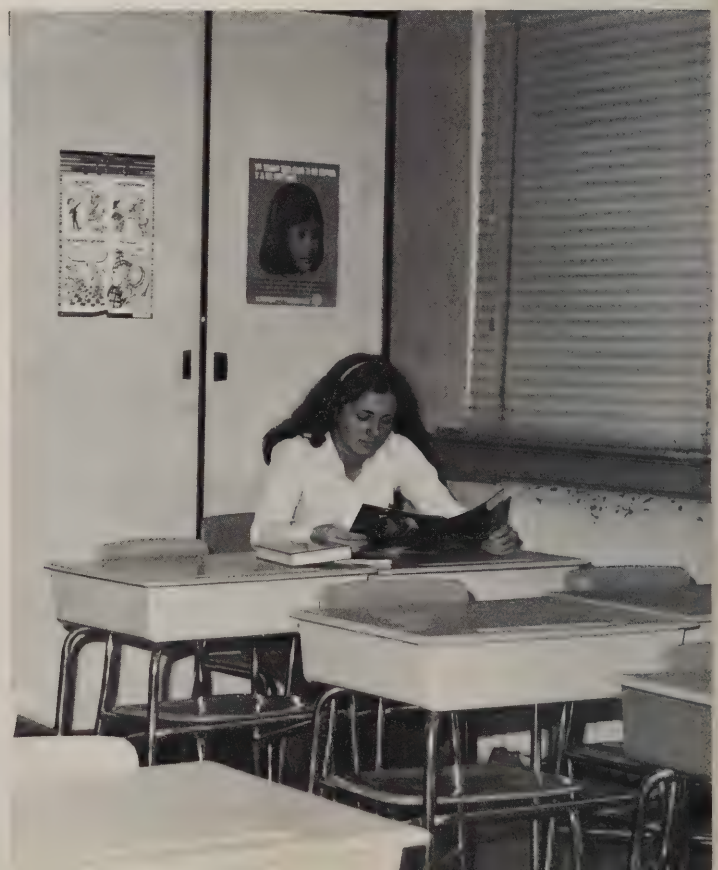
¿HABLA ESPAÑOL?

If one was to walk by room 311, he might hear students talking in an alien language and see a teacher playing with puppets, which are all part of the Spanish classes at HdeG High. There are three levels of Spanish taught by Ms. Barbara Newell.

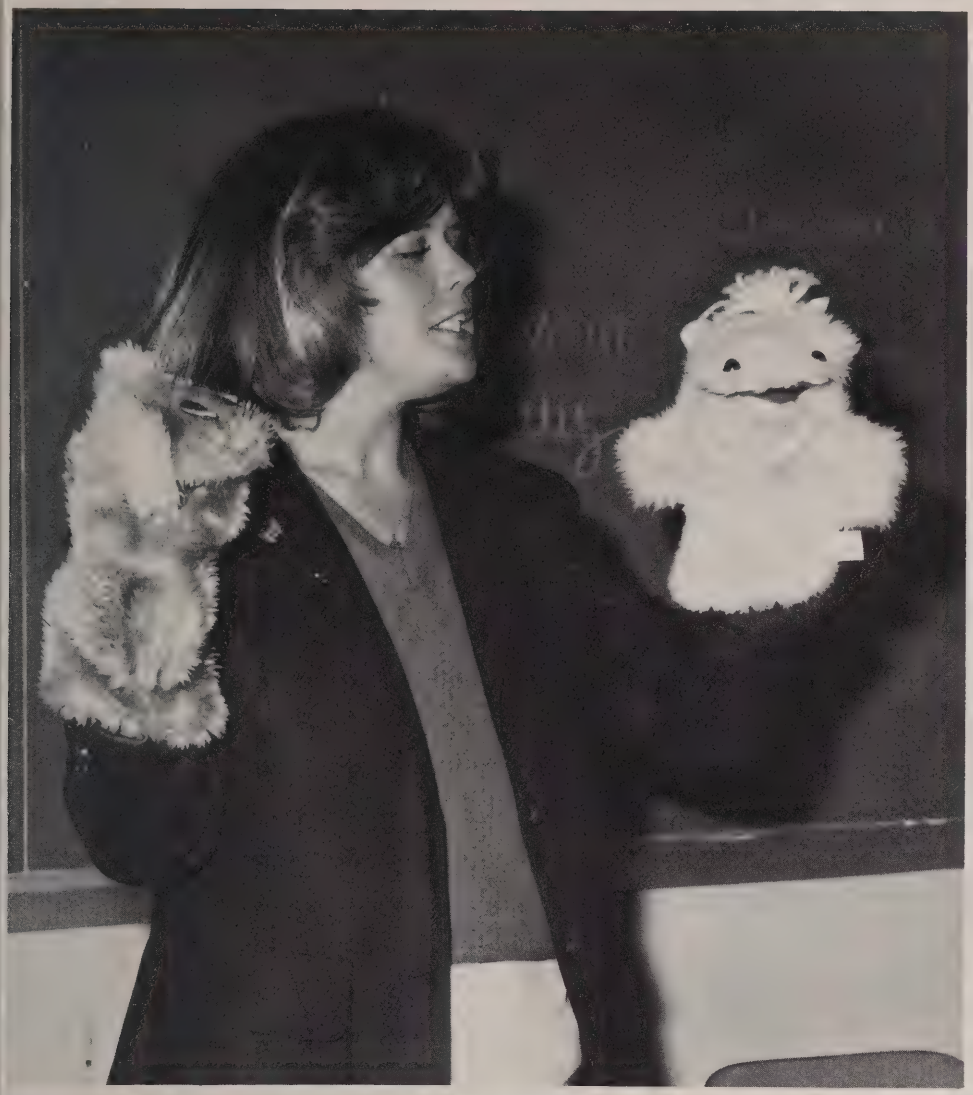
In Spanish I classes, the basics of Spanish are taught: numbers, months, simple vocabulary, etc. The following year in Spanish II students read "Marianela" and plan a Christmas trip to the Middle School. For this trip, the Spanish II and III classes made pinatas. These pinatas are distributed among the five 8th grade classes and each class gets to break one. Spanish III classes read Spanish literature and also write their own Spanish compositions. All Spanish classes have one thing in common: the puppets.

Ms. Newell has two puppets, a walrus and alligator, to help teach Spanish. When the puppets come out, the Spanish students break out into smiles.





PARLEZ VOUS FRANCAIS?

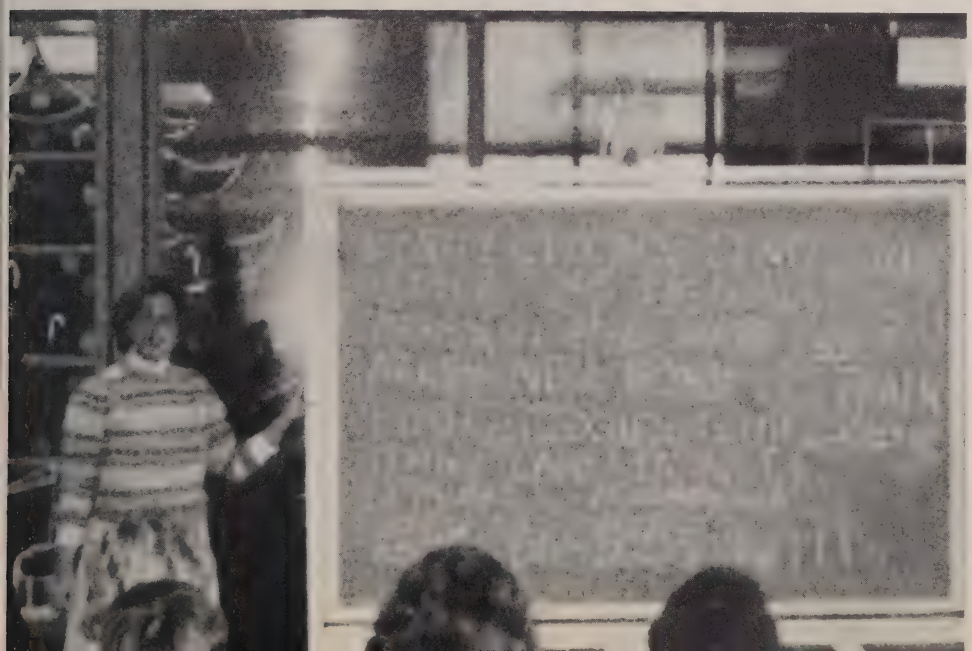


"Bonjour class" is the first thing a student hears when he sits down in Miss Coy's French class. Miss Coy teaches one class of French II and III and two classes of French I. In addition to learning basic French vocabulary and grammar, the French classes plan several special activities such as their Christmas trip to the Middle School. This year the French class presented a slide show.

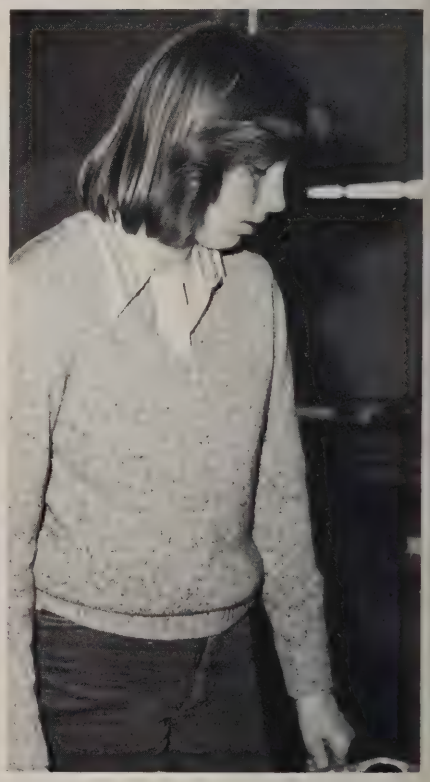
When the French classes go to the Middle School, their purpose is to explain what to expect and what will be accomplished in a foreign language class. A slide show was presented to the students of the Middle School. The slide show, entitled "A Day in the Life of Eugene Ledbetter", was written and produced by the French II and III classes.

The French classes can be exciting, but hard. Miss Coy tries to make it a little easier with her two helpers, Hippo and Bear. They are puppets. The puppets help make the class fun.

"Au Revoir" is what you hear when class is over. You already learned two words!!



DISCOVERING SCIENCE



Cutting, searching, investigating, exploring, and learning new things are all a part of the sciences. The sciences consist of Earth Science, Biology, Life Science, Chemistry, Physics, Physiology, and Bio-Chemistry. Top Left: Sandy May examines the workings of an insect. Top Right: Mrs. Triplett prepares students for the dissecting of a cat. Middle right: Chris Smith looks on, amazed, as fellow classmates prepares to explore the unknown parts of a biologically preserved animal. Bottom Left: Mr. Chapman and Hazel Wallace investigate a snake. Bottom Right: Mr. Trafton helps Vivian Workman with an earth science question.

OUR WORLD

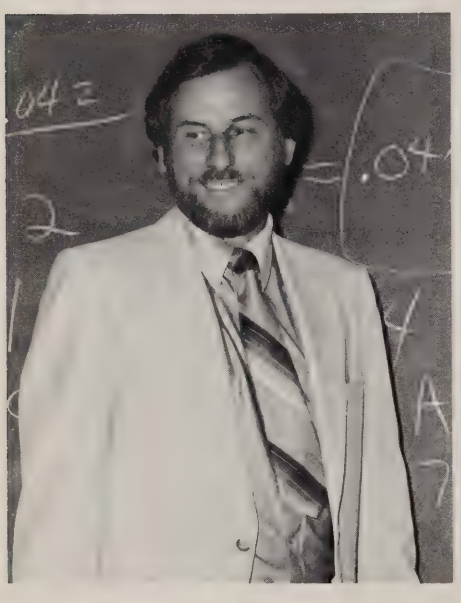
Do you know where to find Peru on a map? This is just one of several interesting skills a student learns in a Social Studies class.

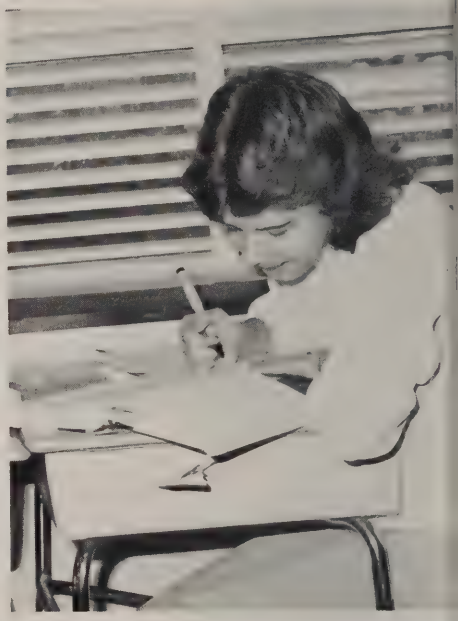
A student in Harford County is required to pass a U.S. History, American Government, and Contemporary Issues class. World History, Geography, and Psychology classes are also offered. A seminar course in which a student learns to write a term paper is sometimes offered.

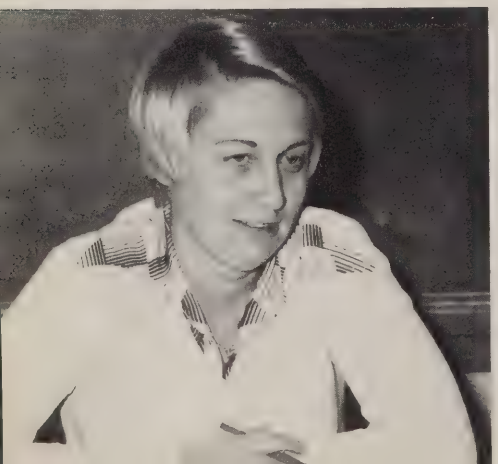
If you have had a little trouble with U.S. History don't feel too bad. Mr. Rupprecht said that he knew a student who took U.S. History for four years but still didn't graduate.

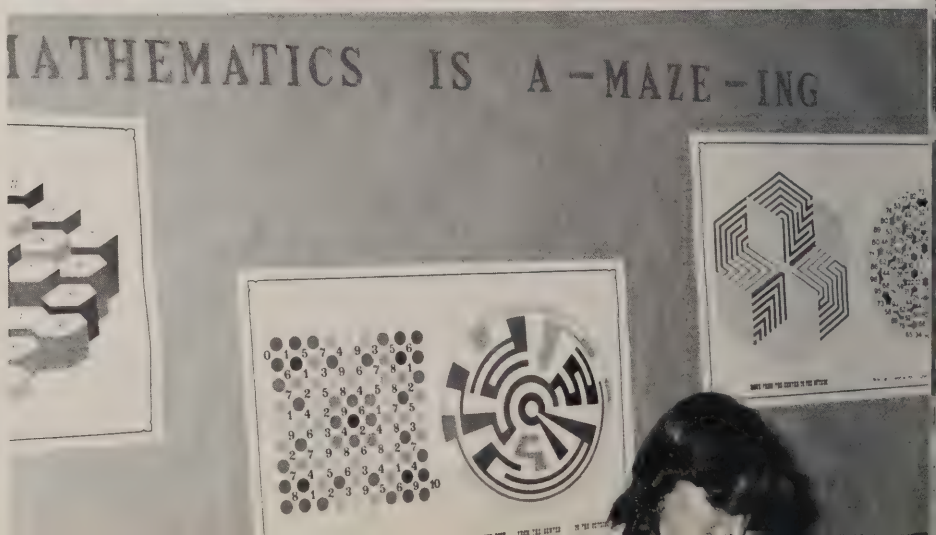
$a^3 + (b^2 + c) =$ CONFUSION

A world of equations and equivalants exists in Math I and II, Algebra A, B, I, and II, Geometry, Trigonometry, Business Computer Programing, and Scientific Computer Programing. Top left: Mr. Lenoci prepares his class for the day's lesson. Top right: Sandy McMillian works in her math class. Middle left: Mr. Ellison discusses a problem from a homework assignment. Middle Center: Charles Forrest concentrates on his Algebra. Middle right: Patty Polk tackles a tough assignment. Bottom left: Miss Turowski explains a problem. Bottom right: Bonnie Powers sits with her back to a bulletin board that could amaze anyone.

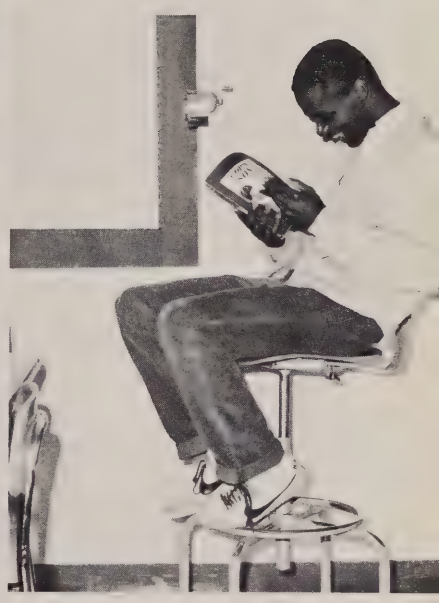


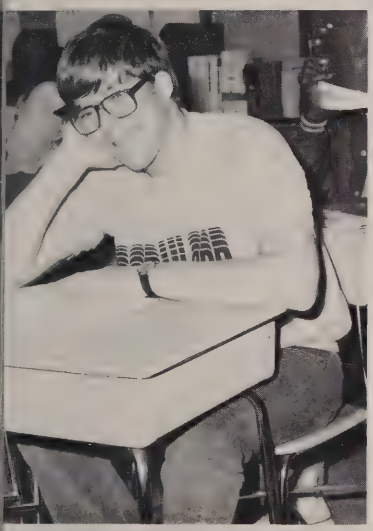






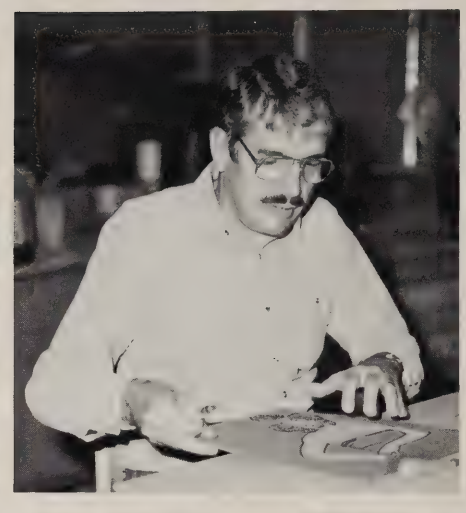
READING LAB





The ability to read is a must in our society. Almost any type of job demands reading ability. In Havre de Grace High there are a special set of classes designed to help students improve their reading ability. The Reading Lab offers an individualized program that allows students to work on different skills at their own pace. Each student takes a pre-test in different areas of grammar and reading skills. Whether or not they achieve mastery at that skill will determine their level of work. After the student has completed the assigned work for a certain skill he takes a checkout test and proceeds to another skill. Students take the Reading Lab on a voluntary basis simply because they want to read better.

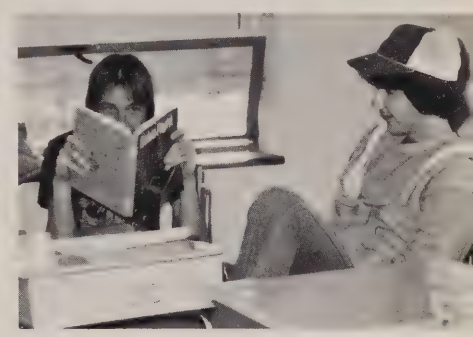
PICASSOS OF HHS



Art classes have always been popular elective credits. It's a class where a student can express his inner creativity in any way he chooses. After taking basic classes such as Basic Art, Commercial Art, Crafts and Ceramics, a student can take Studio Art, which is for advanced students. Mr. Shuler has been a great help to students in the basic classes but usually leaves advanced students to develop their own talents. He is very popular with his students and often does projects along with them. He specializes on the potter's wheel and in painting. Over the years, Mr. Shuler has encouraged talented students to pursue careers in art. He also painted the Senior Class gift to the school, an oil painting of the old building.

Above are pictures of Mr. Shuler and his students .

STUDENT DRIVERS



Driver's Education is the one class that all students look forward to. Some students think of Driver's Education as a class in which they learn how to drive a car without hitting anyone, but they soon find out they're wrong. In Driver's Education a student learns to identify hazards, help concentration, and be alert to the speed to which the car is moving. The main purpose of classroom studies is to develop the thinking process in driving. Although most students feel that this class is easy, 5 to 10 percent of the students fail mainly because of poor attendance.

A driver's education teacher learns to live with danger. Mr. Holly has experienced two student car accidents.

TAKIN' CARE OF BUSINESS

"The Work Study Program of the Havre de Grace school system is unique," states Mr. Harris. "It gives the students the opportunity to explore their field of work while at the same time managing the money they earn." The following students are a sample of the many students involved in this program. 1. DESIGNERS OF OUR FUTURE

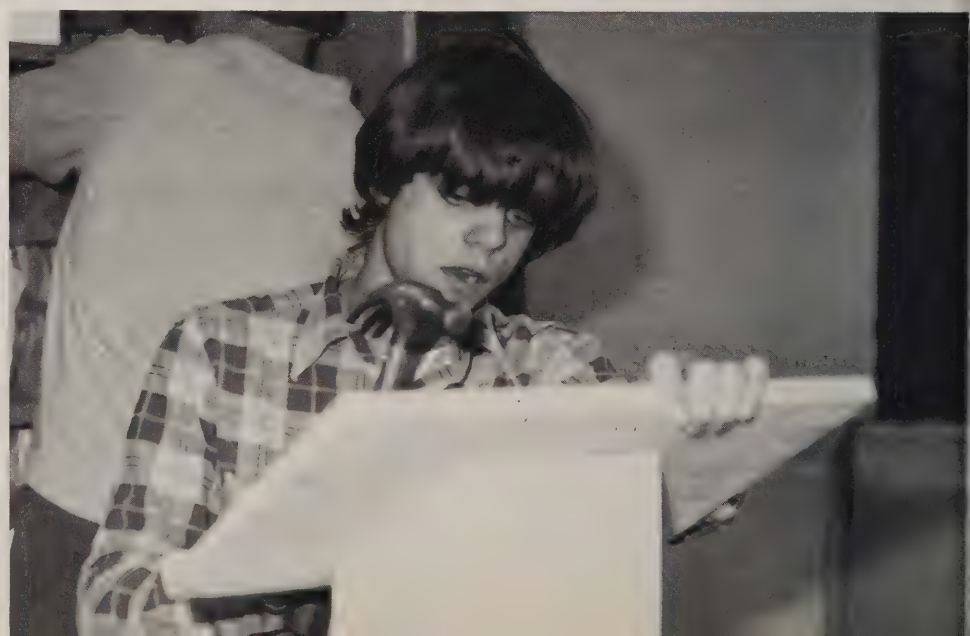
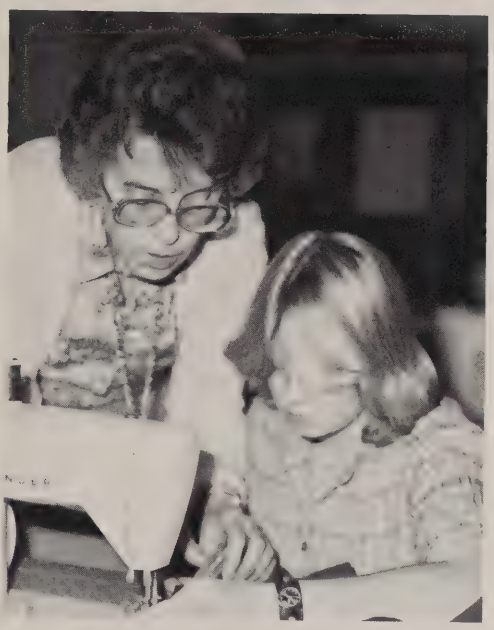
Drafting, wood shop, metal shop, and auto shop are some of the courses offered to those who enjoy designing blueprints, building furniture, welding metal, or fixing automobiles. Creative students, who work well with their hands, would enjoy these classes. These students are the designers of our future. Top left: Mr. Weber instructs Bill Giles on the welding of a project. Top right: Kelly Pensell studies Mr. Roger's work as he explains a drafting technique. Middle left: Mr. Cleek aids Joe Wilson in the use of a metal shop machine. Middle right: Mr. Belcher watches as students attempt to tune an engine. Bottom Keith Harvey tries once more to hit the nail and not his finger.

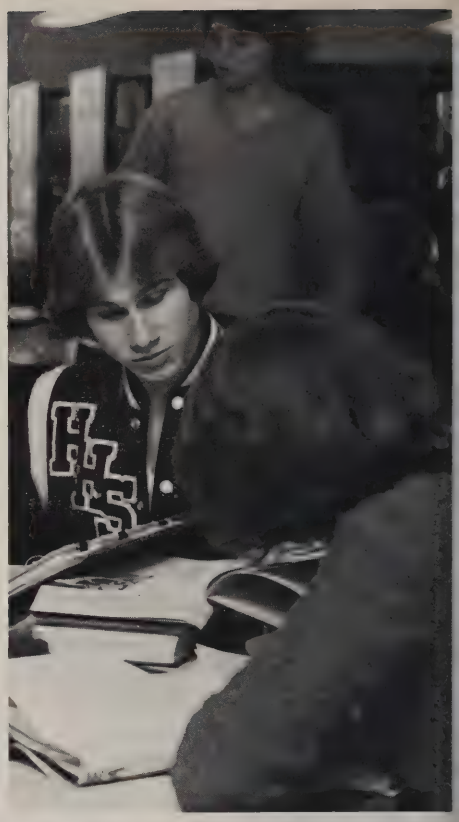


FUTURE HOMEMAKERS



Child care, cooking and sewing are all part of the Home Economic classes. Ms. Williams in the sewing and child care instructor. Child care students take care of children brought in by parents on Wednesdays, Thursdays, and Fridays from 9 o'clock to 12 o'clock. This year in sewing some students made their own suits. Students seem to enjoy these classes more than others because they don't have the task of taking notes and listening to lectures.

BOOKS FOR THE TAKING



The thing that makes our library different from others is the staff; they are unique in their own way. Ms. Bradley and Mrs. Marshall have a friendly relationship with students and teachers. They share the responsibilities of keeping the book inventory and balancing the budget. Each year new books are bought to supply the students with interesting and up-to-date reading material. Some students to go the library to read, others go to study for tests or research term papers. Our library has it's own special qualities because the people who use it are special themselves.

J. GORSUCH

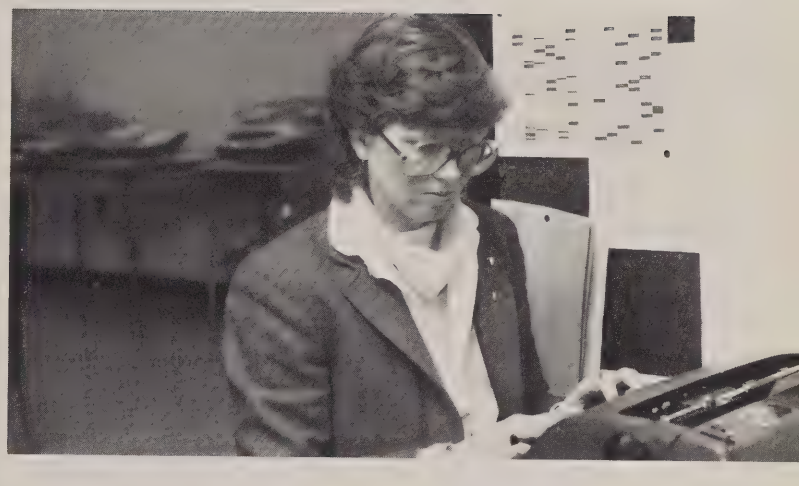
Joyce Gorsuch performed many administrative services in data processing. She maintained complete and accurate records of all student and teacher schedules, report cards, deficiency notices, and attendance cards. Computers, machines, and much paper work were parts of her every day duties. This was Ms. Gorsuch's twentieth year working in the data processing department at HHS. She was also the school treasurer, keeping records of money brought in by school clubs and organizations. She had always wanted to work in a school but not as a teacher. Ms. Gorsuch attended Western Maryland College.

ADMINISTRATION

William E. Hunter (right) was the school supervisor. His job was to evaluate and aid the teachers of Havre de Grace High School. He also organized the Driver's Education Program for Harford County.

With the help of their secretaries, Ms. Curry and Ms. Sheetz, Dr. Dubel and Mr. Taylor have successfully managed to run this school of nearly 1000 students. Dr. Thomas Dubel has been the principal of Havre de Grace High for nearly 4 years and he has done a fine job of keeping this school running in an orderly fashion. Mr. Taylor, the vice-principal, has been both a teacher and vice-principal for 35 years, 9 of which have been spent here at Havre de Grace High.

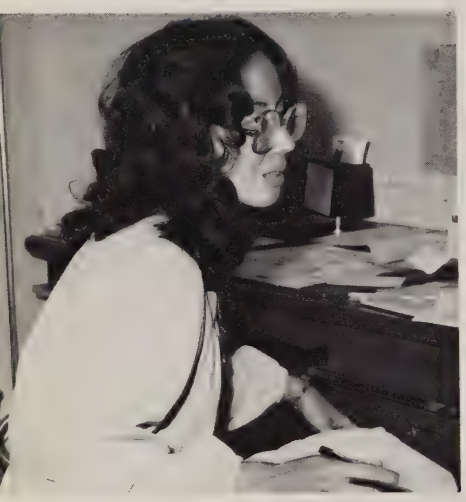
Mr. Taylor talked with Chevelle Howell.



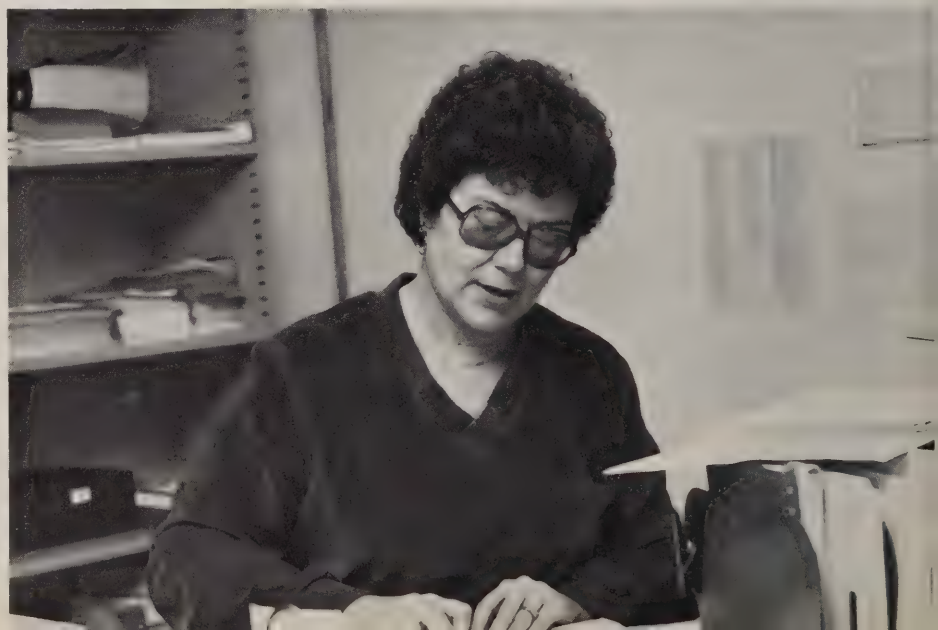
Ms. Sheetz was Dr. Dubel's secretary. She was able to type (above) 90 words a minute.

As vice- principal of HHS, Mr. Taylor (below) often worked with the counselors and teachers. His main job was student discipline. Ms. Curry (right) often filed for Mr. Taylor.

GUIDANCE



Betty Coakley was the secretary, receptionist, and organizer of the guidance department. Marie Stromberg came from Bel Air High School as an English teacher to become a guidance counselor at HHS. Her main goal as a counselor was to be an outlet for students and a source of information. Robert Varlas, once a career counselor at HHS, transferred to Cecil County Vocational Center in the same position. Grace Spry was in her fourth year as a guidance counselor at HHS. Ms. Spry enjoyed everything about being a counselor. She counseled an average of thirty students and parents every day. She especially liked relating with young adults.



EXCUSES, EXCUSES

When you came back to school after being absent the first thing you had to do was go to the cafeteria and get a pass from either Mrs. Lay or Ms. Sampson, the nurse. These two ladies worked closely together all day long and they shared office space. Mrs. Lay spent her days reviewing the absentee list, as well as giving out late passes and out of school passes. She also spent alot of time on the phone and working with the administrative secretaries. Ms. Sampson, the nurse, diagnosised all of the pains and sicknesses that a student could come up with in order to miss class. When there was a real emergency Ms. Sampson was more than qualified to handle it.

When he was away, Ms. Bittle was left in charge of all his duties. Pictured above: Assistant chief custodian. Custodians standing: J. Hurst, C. Ware and E. Warfield. Sitting: C. Erby, and H. Bittle. As a first year teacher, Jo Ellen Schrock is highlighted in the yearbook. While going to Penn State, she was a resident assistant. In charge of eighty women, it was her job to set up social and academic programs.

When asked about the students at H.H.S. she replied, "The students I have are interested in learning, especially in Home Economics. They're interested in knowing different things they can make."

Ms. Schrock admits teaching isn't exactly what she expected. "I expected it to be a job that I would come in and really not have to put a lot of work into. I realize now that it takes a lot of planning, organizing, and disciplining, and I really wasn't prepared for it."

Outside of teaching, Ms. Schrock enjoys running. She thinks she would like to travel if she wasn't teaching.

Mr. James Penley, H.H.S.'s new band teacher from Salisbury State, is a celebrity. He won the "Banana Teacher" award from WKTK and received twenty pounds of green bananas!

He had doubts about his new career at first, having to follow in the big footsteps of John Solbus, but has earned the respect and understanding of his students. He would like to change the attitudes of some students, teaching them to appreciate the beauty of music. He loves to see students pleased with their own accomplishments.

Mr. Penley enjoys relaxins, and plans on doing just that when he gets used to this new experience of teaching.

Mr. Bowman has many interests. He studied German, and lived in a dorm at the University of Delaware where the students spoke German. He also enjoys damping, reading, and bike riding. We welcome Mr. David Bowman to Havre de Grace High School.

Elaine Grigsby, another first year teacher, taught a Presley Ridge Juvenile Delinquent School after graduating from California State College. She admits that teaching is different from what she expected. She anticipated working with younger students, but feels accepted by the students here. Knowing that she is helping people learn and grogress gives her great satisfaction; however, she is not happy that she must occasionally yell at her students to get them to do their work.

When Ms. Grigsby isn't teaching, she enjoys playing tennis and sewing. She said that she would liked to become a stewardess if she had decided not to teach.

Ms. Grigsby says that students here at HHS are generally nice, and she has become good friends with some of them. The one thing she would like to do for her students is to give them the patience they need to do the work they need in order to pass.

This four-man band features Bobby Lockhard on guitar, Scott Walker on bass and vocals, Mark Blomquist on keyboards, and Jeff Andrews on drums.

The group has worked hard to make their production of BLITHE SPIRIT, a comedy by Noel Coward, a success. SUSQUEHANNOCK STAFF

The 1981 Susquehannock staff worked extremely hard this year to bring Havre de Grace one of the best yearbooks ever published. Every day the dedicated staff typed copy, designed layouts, and cropped pictures in order to bring this school a different kind of yearbook, one interesting, informative and entertaining.

Under the continual guidance of Mrs. Jensen, the yearbook staff advisor, and Joan Bradley, senior editor, the staff met every deadline to assure early delivery to the students of Havre de Grace. Through the efforts of the dedicated staff, the 1981 yearbook has captured the year's memories for all to enjoy.

REMBRANDT LIVES ON

The Art club at Havre de Grace was a group of artistic people putting their creativity to work. Many members have exhibited paintings, drawings, and other projects in the annual art show. Judi Jackson and Debbie Burcham have won several awards for their works of art. Not only was the art club responsible for the art show, but also for providing decorations for dances. The Sadie Hawkins, Sweetheart, Homecoming, and Prom decorations were all the result of many hours of hard work by art club members.

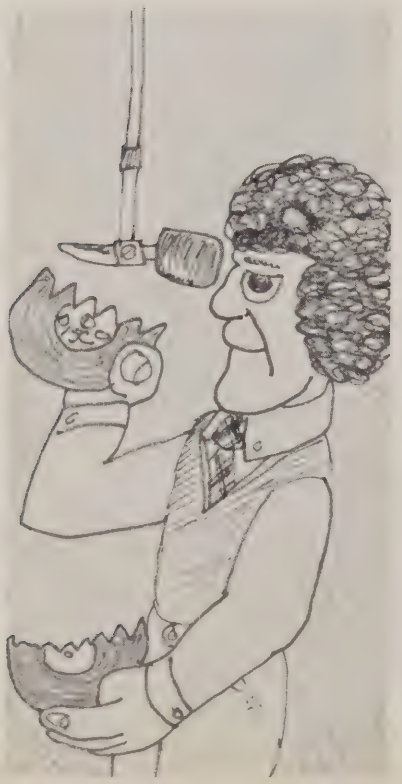
WHHS DJ'S

Every morning the best in top 40 and classic rock was broadcasted throughout Havre de Grace High On WHHS, "the high school by the bay." And every morning one of two voices announced the names of the popular groups and important events that occurred during the week. Seniors Scott Walker and Tom Hemler were those voices, with each playing his own favorite music. Scott favored John Lennon and the Rolling Stones while Tom prefered the new wave and disco. As well as giving Havre de Grace students a relaxing, good morning welcome, Scott and Tom have provided a valuable service to the school. Announcements for big events reached the students faster and more efficiently through the radio than by any other means. Scott and Tom deserve a great deal of thanks for the fine job they've done with "WHHS, the high school by the bay."



SADIE HAWKINS

This year's traditional "girls ask guys" Sadie Hawkins Dance was a huge success. The dance sported a down-home country theme depicted by barnyard posters. DJ Tom Hemler provided the music, and Justice of the Peace Laird Cummings provided the marriage licenses to any student who wished to get married.

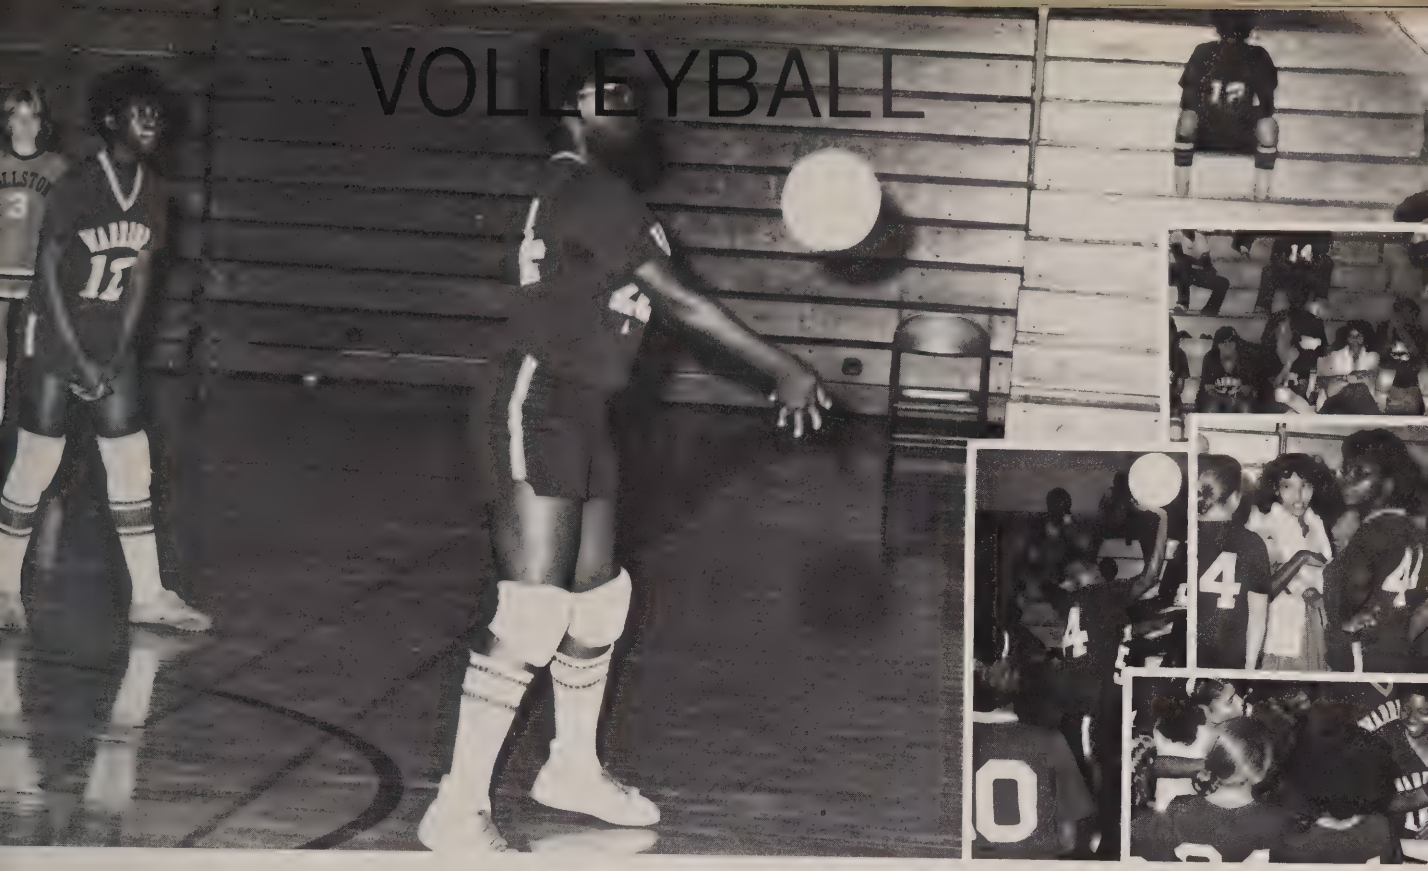
VOLLEYBALL



"Overall the season wasn't as bad as it seemed. The girls played a lot of good games. I'm sure it took the team time to get adjusted to a new coach just as it took time for me to adjust to the demands of coaching, but we had good times doing so," commented Girl's Volleyball caoch, Ms. Grigsby. The young squad compiled a record of 2-10 putting forth great effort in each match. The teams' offense was led by high scorer Jackie Webster, who averaged 6 pts. a match. The team was led defensively be Susan Wettig, who successfully returned volley and serves.

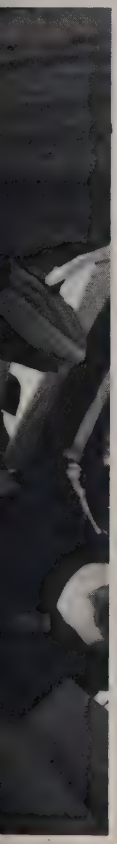
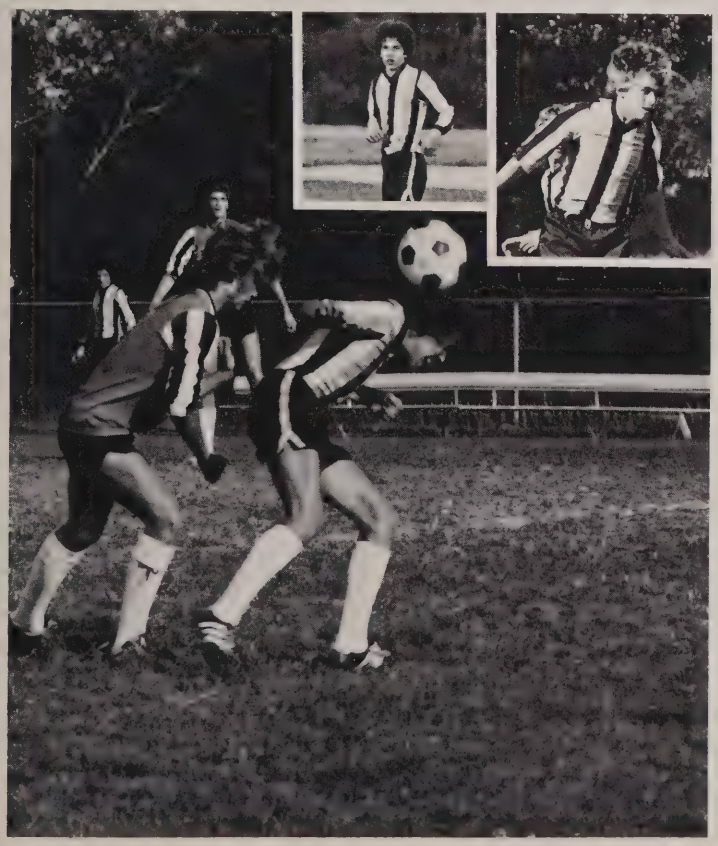
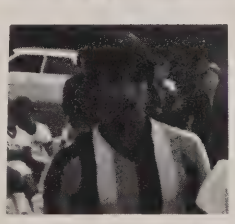
Attempting a daring tackle against an opposing player, Captain Crunch miscalculated his target and instead put a fantastic sliding tackle on a corner marker, smashing it to bits.







The Varsity soccer captains were Craig Whiteford, Kevin Hendricks, and Eddie Henry. Defending the goalie were Craig Whiteford and Kevin Hendricks, both playing fullback. Putting pressure on the other team with scoring was Eddie Henry.

Tricia Tenly and Karen Holloway were the most valuable offensive players, tallying thirty of the forty-nine goals scored all season. Most valuable defensive players were Dianne Lacey, Cynthia Lilly, Vicki Glassman, and Dana Robinson. The defensive unit only allowed fourteen goals to be scored over the fourteen game season, including seven shutout victories.

Cheerleading is more than just a pretty smile. In order to become a cheerleader one must meet many requirements. Three cheers are to be performed on the day of tryouts, two of which must be the girl's own original cheers. A girl must demonstrate three jumps which test poise and style. A cartwheel has to be done with a split to the left and to the right. The three judges, Ms. Ruckman, Ms. Newell and Mr. Penley, judge the girls on appearance, originality and loudness. Only the best become Havre de Grace High School cheerleaders!

Cynt Pushes Up Court

The 1981 Varsity Girls' Basketball had a successful season. The lady cagers compiles an overall record of 14-7. The squad placed 3rd in county, the best finish in 3 years. The Warriors were defeated only by arch-rivals Aberdeen, Fallston, and Bel Air after giving them a hard fought game. However, the squad defeated Aberdeen for the first time in 3 years in the HDG Christmas Tournament, and gave Fallston its only loss in the county.

"The girls have played some of the best basketball I've seen at HDG," commented Coach Baker. "They posted more wins than any girls' b-ball team in the past couple of years. It was a pleasure working with them and I'll miss the seniors that will be leaving. If the younger players work hard during the off season their potential will be unmeasurable."

The team's offensive scoring was led by Sr. Debbie Ramey, aver. 23 pts/game. Ramey reached the 1001 pt. mark during the last game of her 4 yr. career. Ramey, Sr. T. Johnson, J. Webster, K. Branch and Sr. R. Coakley controlled under the hoop play and rebounding. Eva Taylor also provided offensive thrust along with V. Grimes, I. Harris, and D. Minor. Quarterbacking the team was Sr. Cynt Lilly, who totalled 120 assists and led the squad with aggressive defense.

Warrior fans turned out in huge numbers to watch their matmen make human pretzels out of their opponents. The Warrior wrestling team began the season with a 3-0 record, taking 1st place in both Holiday Tournaments at Havre de Grace and Perryville. After winning two tournaments, the Warriors took three dual meets in a row, only to lose the next three. But the Warriors came back, winning three out of the last five dual meets to end the season with a 6-5 record.

This season was a first in many ways. Beating Bel Air was a first for the Warrior matmen. It was also the first season at Havre de Grace for Coach Cech. Finally this year, the matmen had their first winning season.

A good place to start is the Army National Guard. You see, this is the best time of year to join the Guard. You can go right into training and advanced technical school with no waiting around.

And you'll be home before you know it. With a skill. And a good-paying part-time job, to boot. More than $50 for one weekend a month. And that's just for starters.

Get a head start on your future. Get yourself going in the Army Guard. Now.

See your local recruiter. Or call toll-free 800-638-7600.

Get your Guard up.
